

## INTERNATIONAL CONFERENCES

- 1. Stamatopoulos, C. A., Whitman, R.V. (1990). Prediction of permanent tilt of gravity retaining walls by the cumulative strain method. Proceedings, 4th US National Conference on Earthquake Engineering, Palm Springs, California, May 20-24, pp. 683-692.
- 2. Stamatopoulos, C. A. (1994). Prediction of permanent movement of triangular slides after soil liquefaction. Earthquake Resistant Construction and Design, Proceedings of the Second International Conference on Earthquake Resistant Construction and Design, Balkema, Rotterdam, Vol. 1, pp. 243-250.
- 3. Sapounzaki, P., Wassenhoven, L., Stamatopoulos, C., Stamatopoulos, A., Kotzias, P. (1994). Microzonation, urban vulnerability and urban planning in the commercial center of Athens. Proceedings of the Second International Conference on Earthquake Resistant Construction and Design, Balkema, Rotterdam, Vol. 1, pp. 143-150.
- 4. Stamatopoulos, C.A. (1995). A simple model giving the factor of safety after flow slides. Proceedings of the First International Conference on Earthquake Geotechnical Engineering, Balkema, Tokyo, Vol. 2, pp. 899-904.
- 5. Stamatopoulos, C. A., Stamatopoulos, A.C., Kotzias, P.C. (1995). Effect of prestress on the liquefaction potential of silty sands. Soil Dynamics and Earthquake Engineering VII, Computational Mechanics Publications, Southampton, pp. 181-188.
- 6. Stamatopoulos C. A. (1995). Stress ratio on retaining structures after earthquake loading. Proceedings of the Third International Conference on Recent Advances in Geotechnical Earthquake Engineering and Soil Dynamics, Missouri-Rolla, Vol. 1, pp.317-322.
- 7. Stamatopoulos, C. A., Stamatopoulos, A.C., Kotzias, P.C. (1999). Decrease of liquefaction susceptibility by preloading, measured in simple-shear tests. Proceedings of the Second International Conference on Earthquake Geotechnical Engineering, Balkema, pp. 579-584.
- 8. Stamatopoulos A. and Stamatopoulos C. (2000). Liquefaction of sandy deposits on coastal areas. GeoEng2000, International conference on Geotechnical and Geological Engineering, Melbourne, Australia (on CD, 6 pages)
- 9. Petridis P., Stamatopoulos C. and Stamatopoulos A. (2000). Soil Improvement by preloading of two erratic sites. GeoEng2000, International conference on Geotechnical and Geological Engineering, Melbourne, Australia (on CD, 7 pages)
- 10. Stamatopoulos C. A., Velgaki E.G. (2001). Post-seismic displacement of slopes by energy methods. Proceedings of the 10<sup>th</sup> International Conference on Computer Methods and Advances in Geomechanics, Tuscon, Arizona, January 7-12, Balkema, pp 1611-1614.
- 11. Stamatopoulos C. A. and Velgaki E. G. (2001). Critical acceleration and seismic displacement of vertical gravity walls by a two body model. Fourth International Conference on Recent Advances in Geotechnical Earthquake Engineering and Soil Dynamics, San Diego, California. (on CD, 6 pages)
- 12. Stamatopoulos A., Stamatopoulos C. and Aneroussis S. (2001). Geotechnical factors in recent earthquake-induced structural failures in Greece. Fourth International Conference on Recent Advances in Geotechnical Earthquake Engineering and Soil Dynamics, San Diego, California. (on CD, 6 pages)
- 13. Velgaki E. G., Stamatopoulos C. A. (2002). Displacement of dry slopes by energy methods. 5th European Conference on numerical methods in geotechnical engineering, Presse de l'Ecole National des Ponts et Chaussées, France, pp 743-748.
- 14. Stamatopoulos C. and Aneroussis S. (2002). Effect of preloading on the amplification characteristics of a soft site. 5th European Conference on Numerical Methods in Geotechnical Engineering, Presse de l'Ecole National des Ponts et Chaussées, France, pp 919-924.

- 15. Stamatopoulos C., Aneroussis S, Petridis P (2003). Effect of preloading on the liquefaction susceptibility and ground subsidence, based on results of a field test. XIII European Conference of Soil Mechanics and Geotechnical Engineering, Prague. (on CD, 6 pages)
- 16. Stamatopoulos A. C and Stamatopoulos C. A. (2003). Loss of slope stability under heavy rain. Mediterranean Storms, Proceedings of the 5<sup>th</sup> EGS Plinius Conference, Ajaccio, Corsica, France, October, Editrice. (on CD, 6 pages)
- 17. Stamatopoulos C., Stamatopoulos A., Balla L. (2004). Cyclic Strength of Sands in Terms of the State Parameter. The 11<sup>th</sup> International Conference on Soil Dynamics and Earthquake Engineering (11thICSD) and the Third International Conference on Geotechnical Earthquake Engineering, January 7-9. (on CD, 8 pages)
- 18. Stamatopoulos C. and Aneroussis S. (2004). Back analysis of the liquefaction failure at King Harbor Redondo Beach, California. Fifth International conference on case histories in Geotechnical Engineering, New York, NY, April 13-17 (on CD, 6 pages)
- 19. Stamatopoulos C. and Aneroussis S. (2004). Sliding-block back analyses of liquefaction-induced slides. 3<sup>th</sup> World Conference on Earthquake Engineering, Vancouver, B.C., Canada, August 1-6, 2004 (on CD, 15 pages)
- 20. Stamatopoulos C., Balla L., Stamatopoulos A. (2004). Earthquake-induced settlement as a result of densification measured in laboratory tests. 3<sup>th</sup> World Conference on Earthquake Engineering, Vancouver, B.C., Canada, August 1-6, 2004 (on CD, 15 pages).
- 21. Stamatopoulos, A. C., Stamatopoulos, C. A. (2004). Construction related to natural disasters-slope destabilisation. Proceedings of the Conference "Building for a European Future, Strategies and Alliances for construction Innovation", organized by the European Construction Research Network (E-CORE), and the European Council for Construction, Research, Development and Innovation (ECCREDI), Maastricht, Netherlands, 14-15 October, pages 307-317.
- 22. Stamatopoulos C., Bassanou M. Madabhushi G., Brennan A. J. (2005). Evaluation of an elastoplastic method for simulating the seismic response of slopes using centrifuge test data. The 11th International Conference of IAMAG, the International Association of Computer Methods and Advances in Geomechanics, Torino, Italy, June (8 pages).
- 23. Stamatopoulos C., Bassanou M., Poyadji E., Kynigalaki M. (2005). Elastoplastic dynamic analysis of the Aegion slope during the 1995 earthquake. The 11th International Conference of IAMAG, the International Association of Computer Methods and Advances in Geomechanics, Torino, Italy, June (8 pages)
- 24. Stamatopoulos C., Aneroussis S. (2005). Back analysis of liquefaction failure and relationship between the residual soil strength and the N value of the SPT. The 16th International Conference of ICSMGE, September (4 pages)
- 25. Stamatopoulos C. and Aneroussis S. (2006) Back analysis of the Vaiont slide using a multi-block sliding model. First International Conference on monitoring, simulation, prevention and remediation of dense and debris flows, June, Rhodes, Greece, WIT Press.
- 26. Stamatopoulos C. and Pertidis P. (2006) Back analysis of the Lower San Fernando Dam slide using a multi-block model. Geohazards Conference: *Technical, Economical and Social Risk Evaluation*, Lillehammer, Norway, 18 - 21 June 2006
- 27. Stamatopoulos C. A., Stamatopoulos A. C. (2006). Undrained soil strength of mixtures of sand and coal. Fourth International Conference on Soil Engineering '2006. Vancouver, British Columbia, Canada, October 4 - 6.
- 28. Stamatopoulos C. A. (2006). Simple elasto-plastic model predicting the response along slip surfaces. Fourth International Conference on Soil Engineering '2006. Vancouver, British Columbia, Canada, October 4 - 6.
- 29. Stamatopoulos C. A. and Bassanou M. (2006). Mitigation of the seismic motion applied near sloping ground during the 1995 Aegion earthquake, the *First European Conference on Earthquake Engineering and Seismology*

- 30. Stamatopoulos C. A. and Bassanou M. (2006). Prediction of the response of the Stonebridge Park building on piles using simplified elasto-plastic numerical analysis. International Conference on Re-use of foundations for urban sites, October 2006, BRE Company, Watford, UK.
- 31. Stamatopoulos A. C., Stamatopoulos C. A., Photiadis M. G. (2006). The new Acropolis museum of Athens. International Conference on Re-use of foundations for urban sites, October 2006, BRE Company, Watford, UK.
- 32. Stamatopoulos, C. A., Stamatopoulos, A. C. (2007) Cyclic strength of an organic soil in terms of the state parameter. 4<sup>th</sup> International Conference on Earthquake Geotechnical Engineering, Thessaloniki, Greece.
- 33. Stamatopoulos C. A. and Bassanou M. (2007). Mitigation of the seismic motion applied of the Aegion slope using piles and anchors. 4<sup>th</sup> International Conference on Earthquake Geotechnical Engineering. Thessaloniki, Greece.
- 34. Stamatopoulos, C. A., Case Histories of Damage of Foundations near Sliding Slopes (2008), Sixth International Conference on Case histories in Geotechnical Engineering.
- 35. Stamatopoulos, C. A. and Aneroussis S. Back Analysis of the Malakassa Landslide Using the Multi-Block Model (2008), Sixth International Conference on Case histories in Geotechnical Engineering.
- 36. Stamatopoulos C. A., Mavromihalis C., Sarma S. K. (2010). The Effect of the Geometry Changes on Sliding-Block Predictions. Fifth International Conference on Recent Advances in Geotechnical Earthquake Engineering and Soil Dynamics and *Symposium in honor of professor I. M. Idriss*, San Diego, CA – May 24-29
- 37. Thomaidis T., Stamatopoulos C. A. (2010). Accuracy of Empirical Equations Predicting Sliding-Block Displacement. Fifth International Conference on Recent Advances in Geotechnical Earthquake Engineering and Soil Dynamics and *Symposium in honor of professor I. M. Idriss*, San Diego, CA – May 24-29
- 38. Stamatopoulos C. A. (2010). Constitutive Models Predicting the Response of Clays along Slip Surfaces. Fifth International Conference on Recent Advances in Geotechnical Earthquake Engineering and Soil Dynamics and *Symposium in honor of professor I. M. Idriss*, San Diego, CA – May 24-29
- 39. Stamatopoulos C. A. Balla L., Modeling clay response along slip surfaces, WSEAS International Conferences Corfu Island, Greece, July 22-25, 2010
- 40. Kountouzia P., Stamatopoulos C., Mylonakis G (2011). The ground motion and liquefaction susceptibility, as a result of the Aegion earthquake of 1995. 5th International Conference on Earthquake Geotechnical Engineering. January 2011, 13-13. Santiago, Chile
- 41. Stamatopoulos C. (2011) The liquefaction strength of silty sands in terms of the state parameter. 5th International Conference on Earthquake Geotechnical Engineering. January 2011, 13-13. Santiago, Chile
