

## RESEARCH PROJECTS

### Research projects funded by European Space Agency (ESA)

Title	Other participants	Total EU funding	funding for SAA	Years
Earth surface displacements and related risks based on space SAR interferometry	Harokopio University of Athens	150,000€	87,000€	2009-2011

### Research projects funded by the EC DG12 (Science Research and Development), where SAA had a major role

As participant, in charge of a major work package or task

Title	Years	Total financial contribution	Contribution for SAA	Coordinator
New methods of mitigation of seismic risk on existing foundations	2002,-2005	2.855.000€	225.000€	Soletanche Bachy Co., France
Re-use of foundations in urban sites	2003-2006	1.600.000€	112.950€	BRE Co, UK.
Risk mitigation for earthquakes and landslides	2003-2006	6,430,000€	115.200€	Universita Di Pavia, Italy.

### Research projects funded by National Agencies in Greece

As participant, in charge of a major work package or task

Title	Organization that funded the research	Years	Total financial contribution	Contribution for SAA	Coordinator
Foundation of civil engineering works in "problematic" soils under earthquake loading (X-Soils)	General Secretariat for research and Development, Program PAVE	2003-2006	1.129.712€	72,408€	National University of Athens, Greece.
